50 for \$8,20 The Stassen Plan of marketing spring-flowering bulbs is offered to you as the most direct and practical means of securing the world's finest bulbs. For centuries Holland has been known as the bulb center of the world. Through our connections there we are able to send you bulbs grown and packaged in Holland. They are produced by the world's foremost growers who have generations of experience behind them-men who take pride in their work and who are always striving to better their product. Send us your orders and we will send you the bulbs just as they come to us-grown and packaged in Holland.

Bloom Together in April

Collection 6 15 for 5 Red Emperor Tulips \$1.95

Botanical Tulips

The exceedingly interesting Tulips illustrated in their brilliant colors on page 1 are April-flowering and lowgrowing. They are most adaptable to planting in groups, but especially in the rock garden. Cesar Franck distinguishes itself by its beautiful form and contrasting colors, Johann Strauss has striped foliage. Fusilier bears 4 to 5 flowers on a stem. Red Emperor surprises you by its enormous flowers and brilliance of color. Kaufmanniana is the famous Waterlily Tulip, the starry flower almost lying on the ground. Botanical Tulips prefer a sunny, sheltered location where they can be left alone to bloom year after year, without any care. They lend themselves, therefore, specially to combination planting with other permanent bulbs, as suggested.

KAUFMANNIANA TULIPS and SPRING BEAUTY SCILLA

The deep blue flowers of Spring Beauty and the waterlilyshaped Kaufmanniana Tulips make an eye-catching combination. Both will bloom in April and repeat an attractive show for many years in succession.

Kaufmanniana Tulips. 12 for \$1.75;

Spring Beauty Scilla. 12 for 55c:

100 for \$13.25

100 for \$3.75

Collection 4 35 for 10 Waterlily Tulips 25 Spring Beauty Scillas \$2.30

CLUSIANA TULIPS and BLUE GRAPE HYACINTHS

The charming small flowers of the Clusiana, also called the Candystick Tulip, rise above very narrow foliage. They are particularly valuable planted in warm nooks in the rock garden or other sunny locations.

Clusiana Tulips. 12 for 95c; 25 for \$1.85; 100 for \$7.00

Why not plant Blue Grape Hyacinths and Clusiana Tulips where their colors may complement each other? They will make a very attractive garden picture a little later than the combination suggested above. Leave them together undisturbed from year to year so they may spread and multiply.

Blue Grape Hyacinths. 25 for 60c; 100 for \$2.00

Collection 5 35 for 10 Clusiana Tulips 25 Blue Grape Hyacinths

100 for \$2.00

We would like to have our customers get the greatest possible enjoyment from Stassen bulbs, and for that reason we stress over and over throughout this catalog an important point: It is much better to plant bulbs in groups rather than in long straggly lines. To get the best effect, use only one variety or color in each group. This is a fundamental landscaping principle which is very easily followed but which a great many people seem to overlook.

DARWIN TULIPSGrouped by Color

Seven of the finest shades of Darwin Tulips at very advantageous prices. This offer by color is for those garden owners who prefer a certain color but who leave the choice of variety to us.

MEDIUM EARLY-FLOWERING TALL-STEMMED TULIPS

We are offering below a selection of five tall varieties of Tulips which bloom a week or more ahead of the Darwin and other May-flowering varieties. The advantage of planting these early-flowering Tulips is that the flowering period of the long-stemmed Tulips is extended that much. Blooming earlier, they also stay in bloom longer. Each variety offered possesses a beautiful contrasting color combination, which renders them most adaptable to beds, groups and borders.

LATEST-FLOWERING TULIPS

The following varieties are among the latest-flowering Tulips. They come into bloom when the ordinary Darwin and May-flowering varieties have faded. When you include some of these in your planting, you extend Tulip-time for a week or more. We offer them in conjunction with Scilla campanulata, for they bloom at about the same time and make a wonderful combination planting.

April-Flowering Tulips . . .

This class gives an early start to the Tulip season. Dutch Hyacinths and Daffodils are timely companions for them and permit many beautiful combinations of colors.

SINGLE EARLY TULIPS

Although the stems of Single Early Tulips are not so long as those of the May-flowering, they are very strong and withstand the worst weather that is likely to buffet them. They make fine borders and formal beds. Bloom in April, Height 12 to 14 inches.

Daffodils—Narcissus

The dancing Daffodils are a marvel of beauty in earliest spring. Their varying tones of yellow, from softest cream to boldest gold, seem especially appropriate to the new season. Daffodils and Narcissus do well in almost all soils and locations and are a permanent addition to the garden. Plant them where they can be left alone to increase from year to year.

GIANT TRUMPET DAFFODILS

The giant trumpet Daffodils seem to be "blowing their own horns," and well they may, for they are among the most cheering and lusty of all spring flowers. Hardy and dependable, they lead the parade of Narcissus, making a superb picture by themselves or combined with other early-flowering bulbs.

Unusual Spring-flowering Bulbs

Here are listed a number of bulbs small in stature, but they can bring a lot of charm and personality to any garden where they are planted wisely. By "wisely" we mean that they should never be scattered forlornly around; they need to be massed in order to make a showing. It will pay you to become acquainted with these little treasures. Try your hand at combining them with other spring bulbs, perennials and even shrubs.

ANEMONES. Exceedingly brilliant flowers, excellent for cutting. They like to be planted about 2 to 3 inches deep in a cool, moist but well-drained soil. For northern states we advocate early spring planting; for the southern sections, fall planting. They come in many colors.

12 for 60c; 100 for \$4.00; 25 for \$1.10

CAMASSIA ESCULENTA. Forms flower spikes 2 feet high, bearing a cluster of star-shaped flowers of rich purple. Very showy in mass planting. Do well in all locations, and naturalize readily. 12 for 35c: 100 for \$2.00: 25 for 60c

FRITILLARIA MELEAGRIS (Guinea-Hen Flower). In April and May appear pendent, bell-shaped flowers in curiously checkered shades of yellow, white, purple and brown, on stems 12 inches tall. Mixture of colors.

12 for 60c; **100 for \$4.00**; 25 for \$1.10

IXIAS (Corn Lilies). Produce tiny bouquets of numerous little flowers on thin stems. Pretty planted in groups, they are also fine for cutting, keeping in water a long time. Bloom in May and June. Require protection in cold climates.

12 for 35c; **100 for \$2.00**; 25 for 60c

LEUCOJUM (Snowflake). Similar to the snowdrop but larger and stronger. They can be left undisturbed for many years, increasing into great clumps, from which arise the blooms in late April.

12 for 80c; 25 for \$1.50; **100 for \$5.75**

10 Laucojum, 10 Fritiliaria Meleagris, 10 Ammones, 22 Uras

50 for \$1.75

FRITILLARIA MELEAGRIS

LEUCOJUM

DOUBLE RANUNCULUS. The spider-shaped bulbs produce large, turban-shaped heads of fully double flowers in a great range of colors. For northern states we advocate early spring planting; for southern states, fall planting.

12 for **60c**;

100 for \$4.00;

25 for **\$1.10**

ROCK-GARDEN COLLECTION 45

Early spring-flowering bulbs, all suitable in size and habit for a place in the rock garden. All are hardy and will remain for years.

- 5 Kaufmanniana Tulips
- 5 Eichleri Tulips
- 5 Golden Jonguils
- 5 Puschkinia Libanotica

- 10 Crocus, Mixed Colors
- 10 Scilla Sibirica
- 10 Blue Grape Hyacinths

50 for \$2.30

Separately packed and labeled

Giant Crocus

For showy displays Crocus should always be planted in groups and masses. They will grow in many places—in the lawn, in flower beds, in rock gardens, in sun or shade, and even under trees. The flowers of the varieties illustrated below are large and strong and remain erect until the end of the flowering season.

The following ten Crocus bear large flowers of fine quality, each bulb producing several blooms. Once planted, they flower more abundantly every year, and the more there are planted the prettier and livelier aspect your garden will show in the early spring.

INEXPENSIVE MIXTURE OF CROCUS

For flower lovers who prefer various colors mixed together instead of one-colored groups, here is a mixture in which appear several colors with their many variations.

25 for **80c**; **100 for \$2.95**; 1000 for **\$27.50**

SCILLA CAMPANULATA. Erect spikes of open campanulata flowers. Valuable for wild gardens and woodlands, where they should be largely naturalized. Bloom in May.

BLUE, WHITE and PINK.

12 for 45c; **100 fo**

100 for \$3,00;

25 for 85c

SCILLA CAMPANULATA, Mixed Colors. What is more beautiful than patches of blue, white and pink mixed on the ground while shrubs and trees show their first fresh green foliage? Wood Hyacinths produce this magnificent effect in the spring garden. Plant them in generous quantities, especially between trees and under large shrubs. They do very well in light shade. Left undisturbed year after year, they re-

turn in ever greater numbers.

12 for 40c; 25 for 80c;

100 for \$2.75

winter aconites (Eranthis byemalis). The butter-cup-like flowers arise above a dark green rosette of foliage 3 inches above the ground. They bloom a few weeks before the crocus. Especially recommended for naturalizing woodlands and rockeries. 12 for 55c: 25 for \$1.00:

100 for \$3.75

CHIONODOXA (Glory-of-the-Snow). Will produce in early spring an abundance of pretty, star-shaped, lively blue flowers with white hearts. Do well in sunny and shady positions. Left undisturbed, they will increase rapidly in both number and size.

12 for 35c; 100 for \$2.00; 25 fe

GRAPE HYACINTHS (Muscari). The Grape Hyacinth is a favorite among our early spring-flowering bulbs. You can make the most beautiful edgings and groups with them; they look charming in the rock garden and so pretty beneath trees and shrubs. Grow 6 inches tall and bloom in April and May.

Armeniacum. Several large spikes of clearest blue flowers.

12 for 35c;

100 for \$2.00; 25 for 60c

Album. Pretty white, contrasting with the blue variety.

12 for 60c; 100 for \$4.00;

for \$4.00; 25 for \$1.10

PUSCHKINIA LIBANOTICA. Produces a wealth of creamy white flowers marked with beautiful china-blue stripes. They flower abundantly for a lengthy period, in sunny as well as shady positions, and may be left undisturbed for years. Grows 5 inches tall and blooms in April.

12 for 35c;

100 for \$2.00;

SCILLA SIBIRICA (Blue Squill). Produces several spikes of intense blue flowers 4 inches tall. Ideal for naturalizing everywhere. Blooms in April.

12 for 40c:

100 for \$2.75;

25 for 80c

25 for 60c

SCILLA SIBIRICA ALBA. A beautiful white form of the above. 12 for 55c; 100 for \$3.75; 25 for \$1.00

SCILLA, SPRING BEAUTY. A new variety similar to *Scilla sibirica* but distinguished by its heavy, well-filled spikes of deep blue. Also ideal for indoor culture.

12 for 55c;

100 for \$3.75;

25 for \$1.00

SNOWDROPS Galantbus nivalis). Their lovely, white, nodding blooms appear before the frost is out of the ground. For nice effect they must be planted thickly under trees and shrubs and in rockeries where they will soon make intimate colonies. Once planted they remain for years.

12 for 55c;

100 for \$3.75:

25 for \$1.00

DOUBLE SNOWDROPS. The flower cups of these are filled with many small white petals.

12 for 75c;

100 for \$5.25;

25 for \$1.40

Mixture of "HERALDS OF SPRING"

for Naturalizing

An advantageous offer of early spring-flowering bulbs for naturalizing. In this mixture are represented many sorts of "Heralds of Spring." No garden, however small, should be without them. Planted together they achieve a picturesque show for many weeks. Do not miss this opportunity of delight—plant as many bulbs as space permits. They take very little room and once planted, they reappear and bloom each spring.

25 for 65c; **100 for \$2.25**; 1000 for \$21.00

Heralds of Spring

The finding in bloom of the "First Flowers of Spring" is a great event and one of the genuine delights of life. No garden, however small, should be without these "Heralds of Spring." Do not miss this opportunity of delight. Plant as many bulbs as space permits. Pictured below is a galaxy of spring beauties. Leave them in peace and they will reappear every year and multiply fast. Your neighbors will ask you what they are—so be ready with the names.

For the New Home Owners we have arranged a nice collection, especially suitable for new or small gardens. In this Treasure Chest we have included a very pretty assortment, exclusively bulbs in rainbow mixture, in order to have every variety in as many colors as possible. The result is a very colorful effect. Starting with the Crocus in March and finishing with the Ixias in June, you will have a variegated flower garden.

10 Hyacinths

20 Darwin Tulips 10 Single Early Tulips 20 Trumpet Daffodils 20 Crocus

20 Ixias

10 Double Early Tulips 20 Narcissus

20 Dutch Iris

10 Parrot Tulips

20 Scilla Campanulata 20 Fritillaria Meleagris

TREASURE CHEST OF 200 BULBS for only \$8.95

Hardy AMARYLLIS LYCORIS →

(Magic Lily of the Orient)

These bulbs are among the rarest and most beautiful of all bulbous subjects. The long leaves, similar to Daffodil leaves, appear in early spring. They mature and die down in early summer only to be followed by the flower spike in August. The soft pink, lily-like flowers are carried several in a cluster on a stem sometimes as much as 3 feet tall. Pleasant perfume is an added attraction. Because the foliage is gone by the time the flowers come, it is very important to plant Lycoris where the leaves of other plants will help to cover its bare stems. A perennial border is a good place for it. They are perfectly hardy and will thrive under any normal garden condition. Select an exposed, sunny location free from tree roots. Prepare the soil by spading it to a depth of 12 inches and work in some bonemeal or well-rotted manure. Space the bulbs 12 inches apart, for they increase rapidly and will soon become crowded if planted too close. Cover the bulbs with 3 inches of soil.

Each 50c; 3 for \$1.35: 12 for \$5.00

Lilies come in such a variety of form and bloom over such a long period-spring, summer and fall-that they are invaluable in the hardy border.

HARDY LILIES

The handsome flowers combine well with various perennials, and their delicious fragrance is unmatched. When well

	ach	3	12

Especially treated in Holland for early flowering here. Guaranteed to bloom within 6 to 8 weeks after planting. It will be possible to have flowering plants at Christmas. The bulbs arrive from Holland about the middle of October and will be shipped to you separately from your other bulb order in October. This special strain of Amaryllis produces huge flowers of stately form. Do not confuse this special strain with ordinary Amaryllis. Soon after planting these specially prepared bulbs, the heavy flower bud will appear. It is a fascinating thing to watch the spike push its way upward day by day, then to see the flower buds emerge and gradually open. Four on a stalk is the usual number. Do not keep the bulb in the dark at first; just put it in a warm, light room and keep it watered.

Magnificent DEEP RED AMARYLLIS.

3 for \$7.90; 12 for \$28.00

Flawless Pure White AMARYLLIS. Each \$3.00; 3 for \$8.55
